Claim as a sentence

Short context

- Condition → consequence
- Second condition → second consequence
- **Highlight** at most one phrase per slide

Claim that groups parallel ideas

What the ideas share

First idea

- Short point
- Another point
- Third point

Second idea

- Short point
- Another point
- Third point

Third idea

- Short point
- Another point
- Third point

Thesis as one sentence on at most two lines.

Source or chapter of the thesis

References

02

Numbers

1 Key figures

2 Equations

Claim the number proves

What was measured

18×

what the number measures, against which reference

Claim the numbers prove

What was measured

49%

what the first number measures

78%

what the second number measures

92%

what the third number measures

Full track: the reference all three numbers are measured against.

Claim the equation carries

Name of the equation

$$\mathcal{L} = a + \beta\, b$$

$\mathcal{L}$ quantity a first term β weight b term in focus

Claim the equations carry

Name of the model

First quantity	$y = f(x)$
Second quantity	$\hat{x} = g(y)$
Objective	$\mathcal{L} = \|\|x - \hat{x}\|\|^2$

03

Tables

1. Results
2. Decisions

Claim the table supports

Unit, lower is better

	Metric 1	Metric 2	Metric 3
Option C	2.52	7.27	1.17
Option B	3.23	7.87	1.27
Option A	6.11	9.82	5.93

Takeaway in one line: how far the winner leads.

Claim about the choice

Options against criteria

	Option A	Option B	Option C
First criterion	●	◑	○
Second criterion	◕	●	◔
Third criterion	○	◑	●
Pick it for	**use case A**	use case B	use case C

04

Figures

1 Single figures

2 Charts and sets

16×9

Short claim the image proves, at most two lines

Source, place or date of the image

20×180 bp)

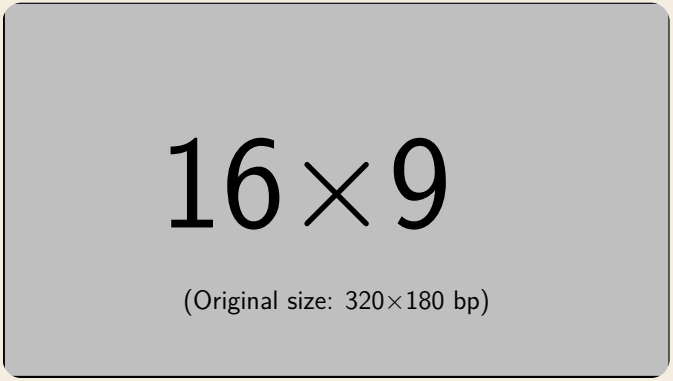

Claim the evidence proves

Setup of the evidence

One short claim

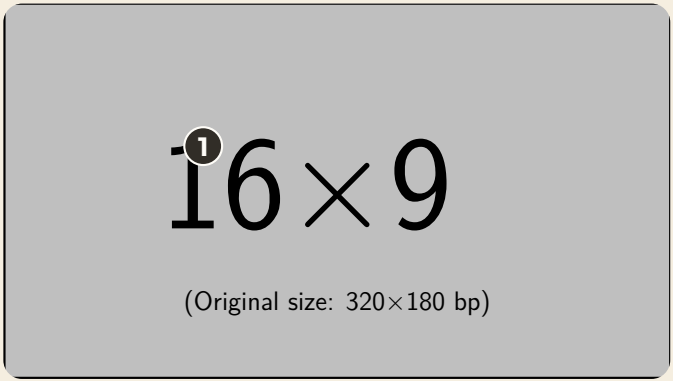

One or two sentences on what to see in the figure.

Author Year, Fig. n

Claim the evidence supports

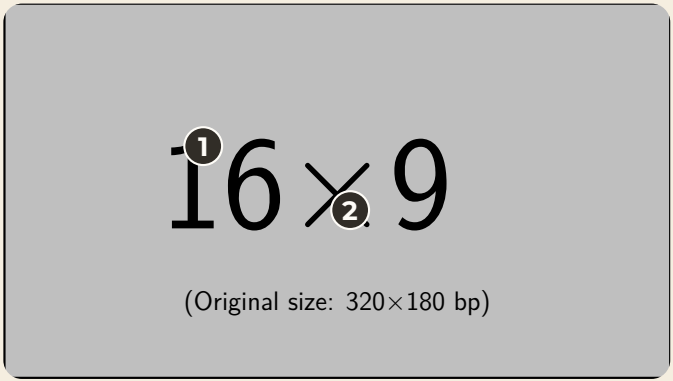

What the figure shows

1. First observation on the figure.

Claim the evidence supports

What the figure shows

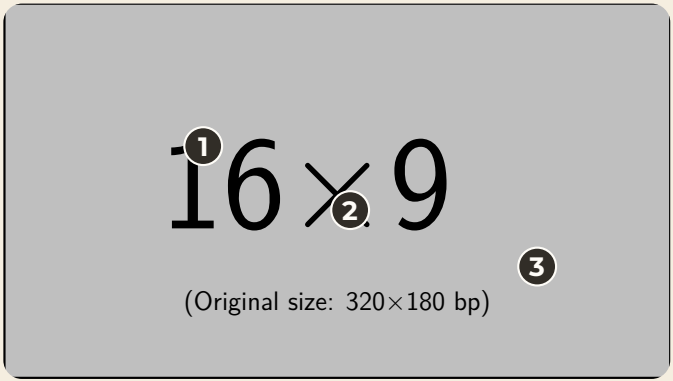

(Original size: 320×180 bp)

1. First observation on the figure.
2. Second observation on the figure.

Claim the evidence supports

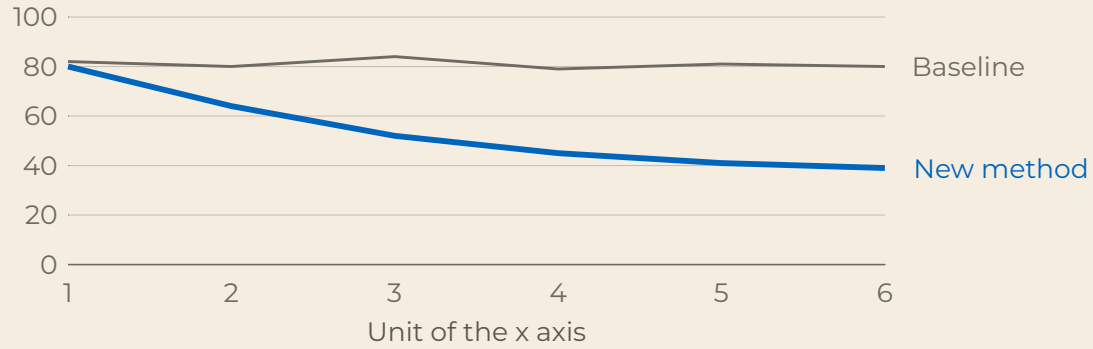

What the figure shows

1. First observation on the figure.
2. Second observation on the figure.
3. Third observation on the figure.

Claim the chart proves

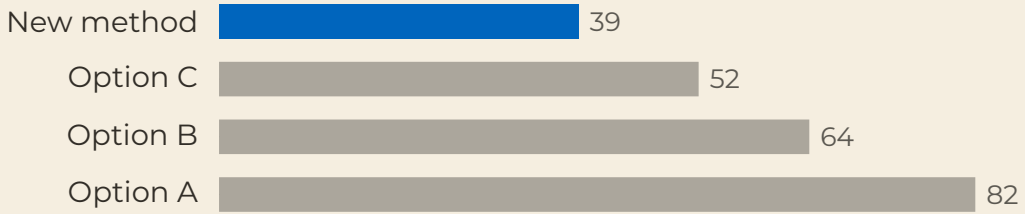

Unit, lower is better

Author Year, Table n

Claim the bars prove

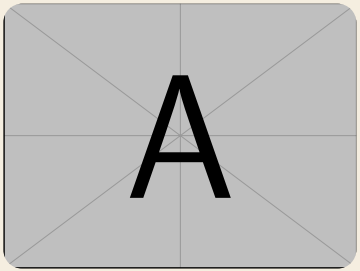

Unit, lower is better

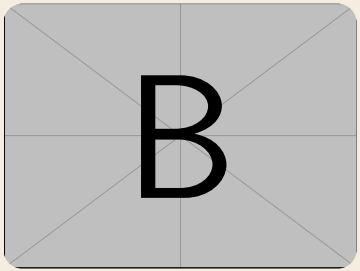

Author Year, Table n

Claim the comparison shows

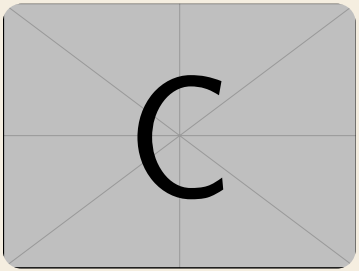

What is compared

First caption

Second caption

Third caption

05

Process

1 Steps

2 Timelines

Claim the sequence makes

Name of the process

01

First step

What happens in this step.

02

Second step

What happens in this step.

03

Third step

What happens in this step.

04

Fourth step

What happens in this step.

Claim the sequence makes

Name of the process

01

First step

What happens in this step.

02

Second step

What happens in this step.

03

Third step

What happens in this step.

04

Fourth step

What happens in this step.

Claim the sequence makes

Name of the process

01

First step

What happens in this step.

02

Second step

What happens in this step.

03

Third step

What happens in this step.

04

Fourth step

What happens in this step.

Claim the sequence makes

Name of the process

01

First step

What happens in this step.

02

Second step

What happens in this step.

03

Third step

What happens in this step.

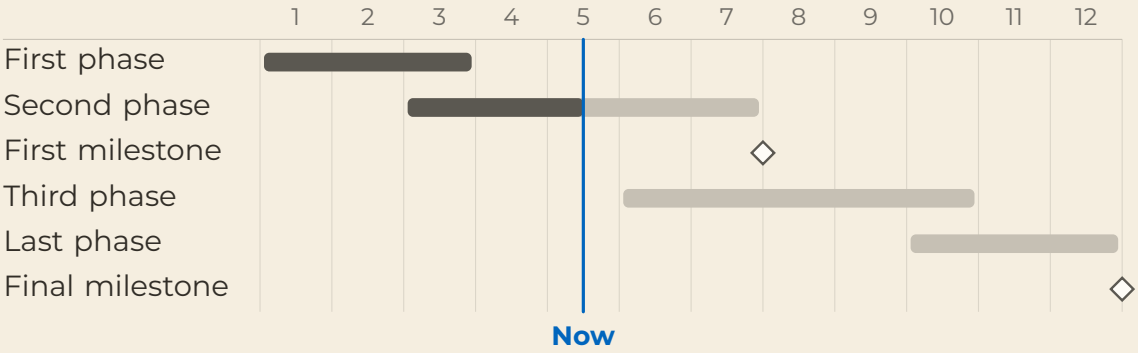

04

Fourth step

What happens in this step.

Claim about the plan

Time unit and period

The one sentence to remember.
