Steps
Timelines

01

Text

1 Points

2 Theses

Claim as a sentence

Italic context in one line

- Condition → consequence
- Second condition → second consequence
- **Highlight** at most one phrase per slide

Claim that groups parallel ideas

Use two to four cards, one heading each

First idea

Short text that supports the heading.

Second idea

Short text that supports the heading.

Third idea

Short text that supports the heading.

Thesis as one sentence on at most two lines.

Source or chapter of the thesis

02

Numbers

1 Key figures

2 Equations

Claim the number proves

Context of the number in one line

18×

what the number measures, against which reference

Claim the numbers prove

Two or three figures per slide

49%

what the first number measures

78%

what the second number measures

92%

what the third number measures

Full track: the reference all three numbers are measured against.

Claim the equation carries

The highlighted term is the one this talk changes

$$\mathcal{L} = a + \beta\, b$$

$\mathcal{L}$ quantity a first term β weight b term in focus

03

Tables

1. Results
2. Decisions

Claim the table supports

Rows are the options, columns the metrics, lower is better

	Metric 1	Metric 2	Metric 3
Option C	2.52	7.27	1.17
Option B	3.23	7.87	1.27
Option A	6.11	9.82	5.93

One sentence reading the table: how far the winner leads and on which metric.

Claim about the choice

Filled quarters replace adjectives, the last row is the decision

	Option A	Option B	Option C
First criterion	●	◑	○
Second criterion	◕	●	◔
Third criterion	○	◑	●
Pick it for	**use case A**	use case B	use case C

04

Figures

1 Single figures

2 Charts and sets

16×9

Short claim the image proves, at most two lines

Source, place or date of the image

20×180 bp)

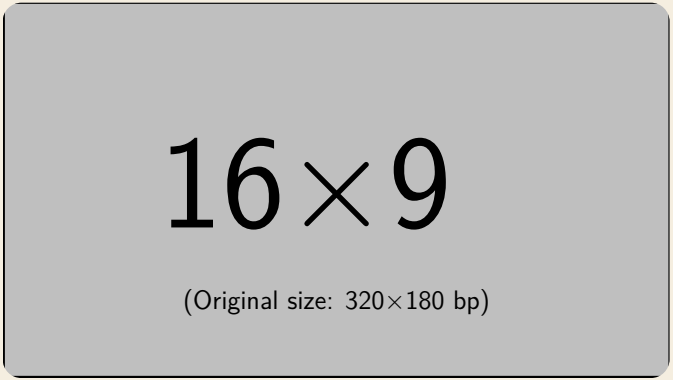

Claim the evidence proves

Setup of the evidence in one line

One short claim

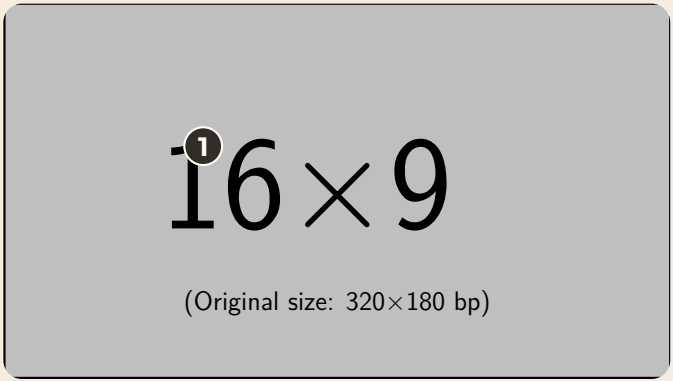

One or two sentences on what to see in the figure.

Source or setup in one line.

Claim the evidence supports

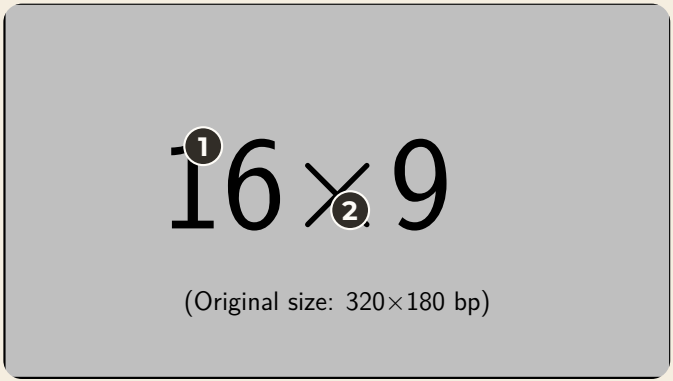

Numbers on the figure, notes beside it, revealed one by one

1. First observation on the figure.

Claim the evidence supports

Numbers on the figure, notes beside it, revealed one by one

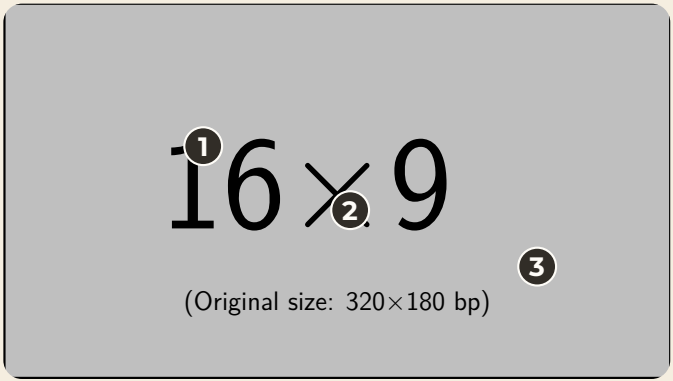

(Original size: 320×180 bp)

1. First observation on the figure.
2. Second observation on the figure.

Claim the evidence supports

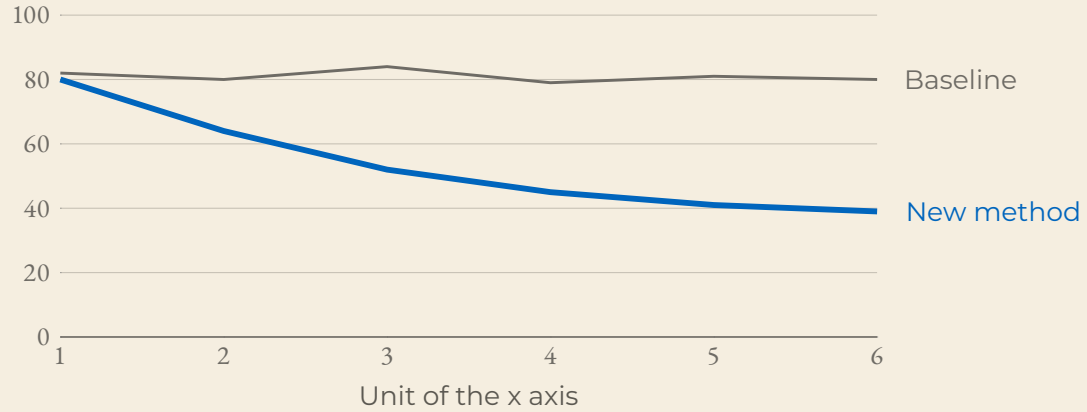

Numbers on the figure, notes beside it, revealed one by one

1. First observation on the figure.
2. Second observation on the figure.
3. Third observation on the figure.

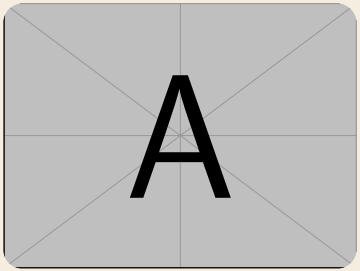

Claim the chart proves

Unit and direction in one line, lower is better

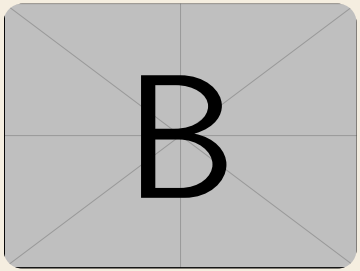

Claim the comparison shows

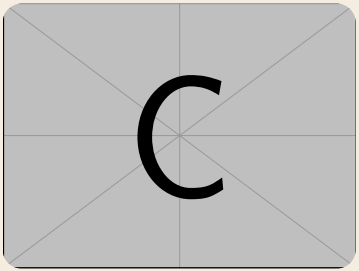

Same view, same scale, one caption each

First caption

Second caption

Third caption

05

Process

1 Steps

2 Timelines

Claim the sequence makes

Done steps in ink, the current step in accent, the rest still faint

01

First step

What happens in this step.

02

Second step

What happens in this step.

03

Third step

What happens in this step.

04

Fourth step

What happens in this step.

Claim the sequence makes

Done steps in ink, the current step in accent, the rest still faint

01

First step

What happens in this step.

02

Second step

What happens in this step.

03

Third step

What happens in this step.

04

Fourth step

What happens in this step.

Claim the sequence makes

Done steps in ink, the current step in accent, the rest still faint

01

First step

What happens in this step.

02

Second step

What happens in this step.

03

Third step

What happens in this step.

04

Fourth step

What happens in this step.

Claim the sequence makes

Done steps in ink, the current step in accent, the rest still faint

01

First step

What happens in this step.

02

Second step

What happens in this step.

03

Third step

What happens in this step.

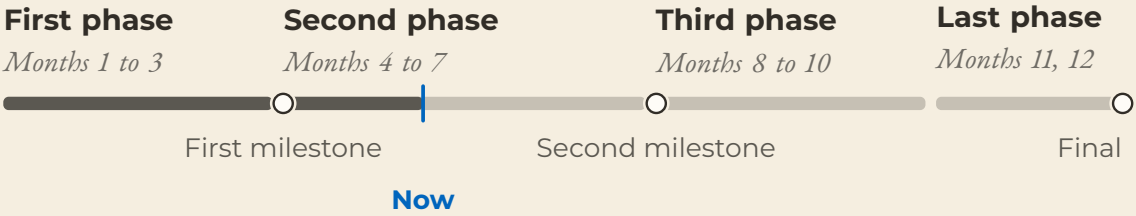

04

Fourth step

What happens in this step.

Claim about the plan

Phases as segments, milestones as dots, one mark for today

The one sentence to remember.
